

Clear the air

.....kitchen ventilation from

- ✓ DW172 Compliant
- ✓ BS6173 Compliant
- ✓ HSE Compliant

Background to Kitchen Vent Technical Ltd.

Having successfully served the UK's kitchen ventilation needs since the early-80s, the KVT team decided to set up their own company to serve the commercial kitchen ventilation sector via Hospitality & mechanical services industries.

Kitchen Vent Technical (KVT) has the unique ability to offer genuine turn-key kitchen ventilation solutions from our own in-house resources. We can accommodate anything from canopy only projects to full systems including Canopies, Ductwork, Odour Control, Electrical, Controls, Fans and Project Management services to provide a complete turn-key project for you.

Guides & standards – KVT is conversant and compliant with:

- B&ES document DW172 (Building & Engineering Services Association Specification for: Kitchen Ventilation Systems) Second edition 2018.
- B&ES document DW144 (Ductwork Specification)
- British Standards document BS6173 (Ventilation of gas fired appliances)
- IGEN UP 19: Design and Application of Interlock Devices and Associated Systems Used with Gas Appliance Installations in Commercial Catering Establishments
- HSE Catering information sheet 10
- HSE Catering information sheet 23
- HSE Catering information sheet 26
- CIBSE document TM50 (Energy efficiency in commercial kitchens)

You can choose as little or as much as you like from canopies only to fully integrated, standalone systems.

Our products include;

- A range of high-performance capture canopies
- In-canopy Ultra-Violet grease & odour control
- Super-efficient grease separation
- Services distribution units (including mechanical & electrical fitouts if required)
- Splash-backs
- Ventilated ceilings
- Integrated fire suppression systems
- Ductwork
- Fans
- Controls and interlocks
- Air-handling plant
- Grease & odour control equipment

Our products are manufactured using the latest laser and CNC. Assembly & inspection takes place in our own factory near Southam in Warwickshire.
